

~ 305-10. Zoning districts.

The city is divided into the districts stated in this chapter as shown by the district boundaries on the Zoning Map. This district is:

B-1 Low-Density Business and Commercial

~ 305-12. District descriptions.

B. Business and commercial district. This district is designated for business and limited to business and certain residential uses by special exception. By establishing a compact district for such uses, better fire protection, police protection and utilities may be provided. Generally, industrial uses are excluded in order to reduce the hazards caused by extensive truck and rail movements normally associated with such uses. However, research, industrial uses and certain light industrial uses are permitted by special exception if they are of such a nature that they do not cause any hazards and if they meet the specific requirements set forth in this chapter.

(1) The B-1 Low-Density Business and Commercial District permits high-value business, commercial and restricted residential uses. The purpose of this district is to encourage the growth of this type of use in the proximity of key locations and major municipal highways.³
